

DATA SHEET

texture twine GM04

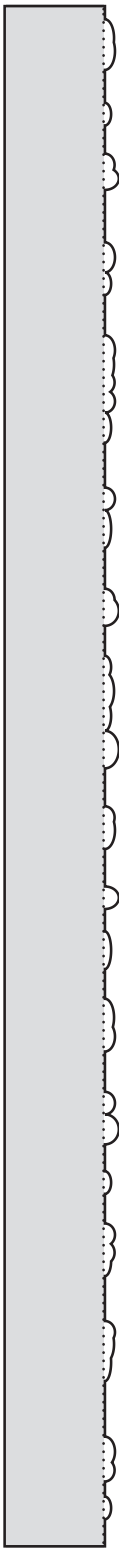

RIEDER

Irregular lines playfully run across the slabs like ribbons. The combination of straight and angled, partially overlapping lines of different sizes creates an exciting visual effect on the facade. The flow of the lines harmoniously integrates into the overall picture.

ivory | ferro light

PRODUCT	concrete skin
WIDTH	max. 1500 mm
LENGTH	max. 5000 mm
THICKNESS	13 + 2 mm
COLOURS	greyscale, timber, bricky, pietra <i>(custom colours on request)</i>
